**14.01.2019**

Dear Parent,

“Our mission has always been to create awareness about healthy living, healthy community and bringing people and organisations together to promote sustainability. In order to pursue this mission, we are celebrating ‘Prakriti - The Ecofest’ on 19<sup>th</sup> January, 2019 from 9 a.m. – 12 noon in the school grounds. It is an endeavour to sensitize students, teachers and the community to a variety of ideas and options of reducing the burden of waste and pollution and adopting greener practices which protect, preserve and nurture our entire ecosystem.

The mind, body and soul of the Ecofest would be the practices and technologies being adopted to make the school and society a healthier environment.

I would request you to spare a little time and visit the Ecofest, an ongoing quest for a greener Earth on 19<sup>th</sup> January, 2019.

Looking forward to your enthusiastic response in making this event a great success.

Regards

(Vandana Chawla)
