NEPS/PAR.CIR./2021-22/20

8<sup>th</sup> November, 2021

**For classes VI-XII**

Dear Parents,

As per Government guidelines, schools can now open with 50% capacity of students and by following COVID-19 protocols. In order to follow this mixed/hybrid, online/offline model of teaching from the school, the school needs to be Wifi compliant.

You will be happy to note that our school is in the process of getting Wifi enabled. The installation process is already halfway through. Once the school has full and effective Wifi installation done, we will open the school for students in a staggered and COVID-19 appropriate manner.

Till then you are requested to ensure your ward's continued attendance in the online classes. Please prepare your child's mindset so that she/he is prepared to be in school as soon as possible.

Regards

PRINCIPAL
