

ISA ACTIVITY : WATER EVRYWHERE TO NOWHERE

Activity 1 Causes of Water Scarcity

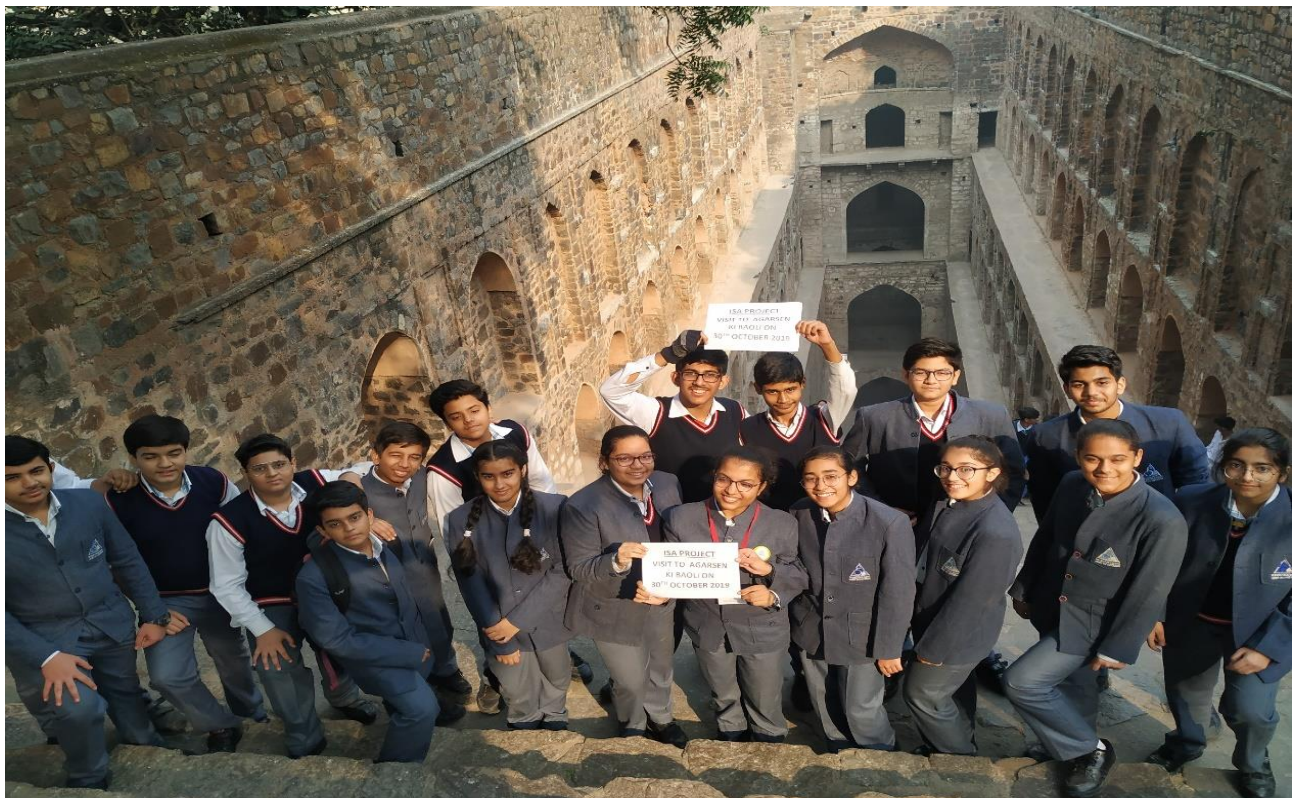

Students were divided in different groups and researched about the causes of water scarcity in India, Libya, Yemen and Jordan. They made posters and write slogans on 'Conservation of water'. A rally was organized in the school premises creating awareness about the importance of water in our daily life.

Activity 2 Water conservation methods

Students were divided into different groups to research about traditional and modern methods of water conservation in India, Libya, Yemen and Jordan. They were shown the rainwater harvesting system of the school and taken to Agarsen/Ugarsen ki Bawli to get an insight into a traditional rainwater harvesting system of India.
